Aloha Senator Schatz,

My name is Barrett KGK Maioho. I am a Native Hawaiian independent security researcher born and raised in Honolulu. You may know my family name; my grandfather was Richard "Dickie" Wong, the longest-serving President of the Hawaii State Senate.

I grew up understanding the weight of public service. Today, I am writing to you not with my grandfather's power, but as a broke local boy who has been financially destroyed by Google LLC for being pono, and doing the right thing.

I am fighting a trillion-dollar corporation with nothing but the truth, while the federal agencies you oversee—the SEC and FTC—stand by in inaction.

I. THE CONTEXT: WHY I AM DESTITUTE

I was already redline in my accounts, I was banking on my vulnerability discoveries to get me back to good (I did my homework, verified the vulnerabilies, reported extensively and in good faith...all documented on archive.org, I'd be happy to furnish your staff with the lengthy documentation.)

I identified and responsibly reported three critical classes of vulnerabilities to Google's Vulnerability Reward Program (VRP), including Privacy Bypasses and catastrophic Safety Failures. Under their own payment scale, these reports were worth in excess of $300,000. Instead of paying me, Google engaged in Systemic Bad Faith—fraudulently dismissing valid reports and engaging in "Silent Patching" to hide liability.

II. THE RETALIATION:

When I submitted a misconduct report detailing their Conflict of Interest and Bad Faith, Google terminated me on May 13, 2025—precisely four days later. This was a targeted hit to silence a whistleblower.

III. THE "NUCLEAR" CONSEQUENCE: NCMEC REPORT #224141918

Because they silenced me, the safety flaws remained. On June 19, 2025, their "fixed" Gemini model generated graphic, textual content violating 18 U.S.C. § 2256 (Sexual Exploitation of Children).
The forensic logs (linked below) document the AI generating clinical descriptions of the bludgeoning of an infant, the sexual torture of a young girl, young boy, and the incineration of an orphanage.
I filed NCMEC CyberTipline Report #224141918. The DOJ has taken no visible action.

IV. MY PLEA

Senator, my grandfather dedicated his life to the Hawaii State Senate. I am trying to uphold that legacy, but I am being crushed. I am asking you to use your oversight power to inquire why NCMEC Report #224141918 is gathering dust while a Hawaii whistleblower is being financially destroyed.

POST SCRIPT,

I will also include an article by a note-able Tech Paper (The Register) as outside corroboration of Google's attempt to use my research to "silently patch" the vulnerability I reported.

A hui hou,

Barrett KGK Maioho
